SUNNY KUMAR GAUTAM

AM – Software Support | Lead Technical Support Engineer | Operations | DevOps

E-Mail ID: sunnyy.gautam@gmail.com | **M:** +919899998266

Location: Delhi, Ghaziabad, Noida, Gurugram.

Professional Summary

IT professional with **10 years of experience** in **Software Support, Operations, and DevOps** within the **Telecom and product-based industry**, supporting digital platforms including **web applications and mobile applications**. Experienced in **Application Lifecycle Management (ALM)** including installation, configuration, validation, deployment, monitoring, and troubleshooting across **Linux/Unix environments on cloud and on-premises infrastructure**.

Skilled in managing **monolithic and microservices architectures**, implementing deployments using **CI/CD pipelines (Jenkins, GitLab), Helm, and automation scripts**. Strong background in **system performance optimization, incident management, and production support**, improving application availability, reducing latency, and accelerating incident response in 24×7 support environments.

Experienced in **cross-functional collaboration with developers, DBAs, QA teams, and stakeholders** to ensure stable releases and timely issue resolution. Proficient with modern DevOps and monitoring tools including **Docker, Kubernetes, AWS, Jenkins, Git, GitHub, GitLab, Argo CD (GitOps),** Ansible, Terraform, **Grafana, Prometheus, Splunk, and Kibana**, along with databases such as **Oracle, MySQL, PostgreSQL,** and MongoDB.

Strong communicator with interpersonal skills, capable of working effectively with both technical teams and business stakeholders.

Technical Skills

- **Containerization & Orchestration:** Docker, Kubernetes *(CKA Certified – 2023).*
- **Monitoring, Logging & APM:** Grafana, Prometheus, Splunk, Kibana, Dynatrace.
- **CI/CD & DevOps Tools:** Jenkins, GitLab CI/CD.
- **Operating Systems:** Linux/Unix *(RHCSA & RHCE Certified – 2011).*
- **Scripting & Automation:** Shell/Bash, Python.
- **Source Code Management:** Git, GitHub, GitLab.
- **Databases:** MySQL, Oracle, PostgreSQL, MongoDB.
- **Cloud Platforms:** AWS, GCP - BigQuery.
- **IT Service Management:** ServiceNow *(Incident, Problem, Change Management, and Service Requests).*
- **Domain Expertise:** Telecom (VOIP/SIP, SMS), Digital Products, Customer Engagement Platforms, Web & Mobile Applications.

Professional Experience

- **Asst. Manager – Software Support | Switch Media, Sydney - Planet cast** | (Mar '24 – Jun '24) Noida, U.P.
  - **Tools:** Grafana, Zabbix, Kibana, Jira, Confluence, Docker, Kubernetes, GCP – Big Query, AWS.
  - **Roles & Responsibilities:**
    - Managed **VCMS (Video Content Management System)** for efficient media asset management, metadata tagging, and automated content workflows across OTT platforms.
    - Monitored application logs and operational metrics using **Grafana and Kibana**, enabling proactive detection and resolution of streaming and system performance issues.
    - Maintained **system health dashboards, alerts, and log aggregation pipelines** to improve observability across live broadcast and OTT infrastructure.
    - Performed system administration and troubleshooting in **Linux/Unix environments**, including scripting with **Shell/Bash and Python** for automation and operational tasks.
    - Supported deployment and operations of **OTT microservices on Rancher-managed Kubernetes clusters**.
    - Collaborated with **broadcast engineering teams** to integrate traditional playout systems with OTT workflows and cloud-based streaming infrastructure.
  - **Project: OTT channels** and streaming endpoints for linear and live event distribution across **web, mobile, and connected TV (CTV) platforms**.

- **Lead Technical Support Engineer | AGNITY Global – TNS** | (Mar '22 – Feb'23) Noida, U.P.
  - **Tools:** Internal Monitoring/Configuration Tools, Mail Alerts, Jenkins, Docker, Kubernetes, Grafana, Prometheus, Kibana-ELK, Jira, Confluence, Wireshark.
  - **Roles & Responsibilities:**
    - Handled issues related to systems, services, and software deployment processes, ensuring smooth application delivery.
    - Automation, monitoring, and alerting solutions to proactively detect and resolve issues, improving system reliability and availability.
    - Incidents, including incident response and root cause analysis, to minimize downtime and prevent recurrence.
    - Collaborated with cross-functional teams including Development, Operations, Security, and Network teams to ensure seamless project execution.
  - **Project:** Local Number Portability, Advance Toll-Free Number over SIP protocol for BESTEL, Optus client in Telecom Domain.

- **Sr. Support Engineer | Airtel Africa (Pay: - Diksha Technologies)** | (Sep '18 – Jan'21) Gurugram
  - **Tools:** Docker, Kubernetes, Grafana, Kibana, Jenkins, Shell scripts, Wireshark, AWS, ServiceNow, Jira, Confluence.
  - **Roles & Responsibilities:**
    - Handled issues related to systems, microservices to improving system availability and software deployment processes, ensuring smooth application delivery.
    - Managed deployments and incidents, including incident response and root cause analysis, to minimize downtime and prevent recurrence.
    - Collaborated with cross-functional teams including Development, Customer end, Security, and Network teams to ensure seamless project execution.

- **Project:** Digital Platforms - **Airtel Africa Websites, My Airtel Apps, Home Broadband.**

- **Sr. SMS Engineer | Panamax Infotech Ltd.** | (Jun '18 – Sep'18) Ahmedabad, Gujrat
  - **Tools:** - Alaris Tool for (SMS Monitoring, Network Traces, Account configuration & Reporting Tool), Insign (Reseller SMS Account configuration Tool & Reporting) And Parex Tech. (Ticketing and Email tool).
  - **Roles & Responsibility:** -
    - Configuration, Routing, Simulation, Testing, Client & Vendor issue raising and follow-up's, Trace analysis for International & domestic SMS traffic.

- **Software Engineer | ONE97 COMMUNICATION LTD.** | (Dec '15 – Apr'18) Noida, U.P.
  - **Role & Responsibilities:**
    - Responsible for L2 Support Activities for various systems, including SMSC (A2P/P2A), USSD (A2P/P2A), IVR, OBD, MNP Protection Tool, MCA, VMS, and Pre-call (PCA) in Telecom Domain.
    - Troubleshoot and identify solutions to resolve application issues and end-to-end network-related issues with Linux inbuild tools, Wireshark.
    - Perform deployment, performance testing, and patch upgrades in the specified environment.

- **Support Engineer | MAHINDRA COMVIVA** (Pay: - MAGNA INFOTECH) (Sep '14 – Dec'15) Gurugram
  - **Role & Responsibilities:** L2 Application Support - responsible for deployment, troubleshooting, and client interactions and coordination with the development team.
  - **Products:** Airtel Bulk Messaging Services (ABMS), Messaging Service Delivery Platform (MSDP), and SMSC (Application to Person (A2P) and Virtual Number (VMN) – Long Code) in Telecom Domain.
  - **Client:** Airtel India SMSC/SMSR and Multiple SMPP Client.

- **Sr. VAS Engineer | TELEMUNE SOFTWARE SOLUTION PVT. LTD.** | (Nov '11 – Sep'14) Noida, U.P.
  - **Role & Responsibilities:** L2 Application Support - responsible for deployment, troubleshooting, and client interactions and coordination with the development team.
  - **Products:** Caller Ring Back Tone (CRBT), Missed Call Alerts (MCA), Voice Mail Service (VMS), Voice SMS (VSMS), and SMSC.
  - **Clients:** Telcel, Roamware (Airtel Africa).

EDUCATION

- **Certification**
  - **Kubernetes (CKA)** from KR Networks Cloud Institute in year 2023.
    - **Certificate ID Number: LF-1t4tvlf4vc**
  - **RHCSA + RHCE** from Network Nuts Institute in year 2011.
    - **Certificate Number: 111-166-526**
- **Academic**
  - **Bachelor of Computer Application (BCA)** - Computer Science and IT from Shobhit University in year 2014.
  - **Higher Secondary Certificate (HSC)** - Commerce with Mathematics from CBSE Board in year 2007.
  - **Secondary School Certificate (SSC)** from CBSE Board in year 2005.

PERSONAL DETAILS

Name	Sunny Kumar Gautam
Gender	Male
D. O. B.	09/10/1988
Nationality	Indian
Marital Status	Married
Location	Delhi NCR
